STALLION SERVICE REPORT INSTRUCTIONS

The Registry recommends that stallion owners require written breeding contracts with mare owners and/or their authorized agents.

The owner or manager of a breeding stallion which has been bred to any registered or recorded mare(s), and will produce a 1/2 dutch or more offspring during a breeding season must submit a Stallion Service Report on a form acceptable to the Registry no later than October 31 of the year during which the stallion is bred.

Information to be included:

1. Registration number and complete name of each mare bred
2. Name of each mare owner
3. All dates mare was bred, and/or represented to have been bred in the case of transported semen (mare must be listed separately for each embryo and/or oocyte transplant.)
4. Method of service:
 - transported semen (frozen or fresh cooled)
 - natural cover
 - artificial insemination
 - pasture breeding and dates mare was confined with stallion
5. Signatures of all persons authorized to sign breeder's certificates for the listed mares
6. Signature of the person preparing the report

***Please note that unless the column marked "Withhold Registration Certificate" is checked, completion of this report also suffices as the Breeder's Certificate for each breeding listed that is not checked. Registration of foals from these breedings will be processed without a separate Breeder's Certificate. If this section is checked then a separate Breeder's Certificate will need to be submitted along with the application for registration for each foal.**

Include all information requested. If you do not have complete information by October 31, please submit your report and include the information available and you may submit an amendment to your report at a later date.

Should the stallion owner or manager fail to file a Stallion Service Report for a breeding season, any foals produced by the stallion and owned by the stallion owner and/or authorized manager bred in the breeding season for which the Stallion Service Report was not filed will not be eligible for registration until the Stallion Service Report has been filed for such breeding season with the Registry and the penalty fee paid.

If a registration application for a foal is received by ADHHA and the name of the mare does not appear on the Stallion Service Report, an amended Stallion Service Report must be filed by the person authorized to sign the Stallion Service Report.

Information submitted on the Stallion Service Report will not be released without written authorization from the stallion owner or manager.

Failure of a stallion owner or manager to supply a Stallion Service Report to the Registry by October 31 of the current breeding season, or making a false or fraudulent statement on the Stallion Service Report, shall be in violation of the rules of the Registry and the By-Laws of ADHHA.

Return this form to ADHHA Registry by October 31. Please make a copy for your records.
